

THREE CARS IN CRASH

BAKERSFIELD STAGE AND TWO
 SAN FERNANDO BUSES
 COLLIDE

L. G. Scovern's ambulance was called to a point about a mile south of Pacoima last night where a peculiar and serious accident had taken place shortly before 8 o'clock. The Bakersfield oil pipe line, which is just beneath the surface of the road, had burst and oil was running like a river. The Bakersfield stage, Los Angeles bound and going at the rate of sixty miles an hour tried to pass a San Fernando bus and skidded in the oil, striking the bus it was passing and also another San Fernando bus outbound. The three big cars came together with such force that the Bakersfield stage turned over three times and passengers were hurled a considerable distance. There were no casualties, although a number of the passengers were seriously injured, one man whom Mr. Scovern brought to the Burbank hospital having both arms and a leg broken.

THE CHAPMAN WAY

H. H. CHAPMAN BUYS, IMPROVES,
 SELLS THREE GLENDALE
 HOMES IN YEAR

H. H. Chapman and wife are certainly doing their best in the way of improving the appearance of the home city. When they came here a year ago from the little farm in the Ozarks of Missouri, they bought a run-down place on Geneva street. Mr. Chapman began at once to repair the house and improve the grounds with lawn, fruit and shade trees. He made such a decided change for the better in the appearance of the place that he sold it very advantageously. Then the property at 632 North Louise was bought, likewise improved and soon sold. Next in order was 1100 Campbell street, which was in pretty fair condition when bought, but Mr. Chapman just had to put some work on it. When this, too, was sold at considerable profit the Chapmans bought the present home at 1143 East Wilson avenue, and Mr. Chapman has already worked a great improvement in its appearance, so that it may meet the fate of its predecessors and be snapped up by some eager buyer.

Mrs. Chapman says that three of the four properties they have bought since coming to Glendale have been owned by widows.

Intensive Cultivation

A striking change has been made in the appearance of the three acres at the southeast corner of San Fernando Road and Park avenue. Last year all in tomatoes and lettuce, this year three new houses, another one building and one moved on and now occupied as a residence, can be seen. Also an excellent garden, which has been the pride of Homer Roberts' heart this summer. He has raised some of the finest beans, tomatoes, lettuce, watermelons and casabas, and is now putting in new winter crops. All of this has been done before and after regular work hours as a carpenter and it shows the infinite possibilities of intensive cultivation of Glendale soil.

Care For Visitors

Since the publication of the list yesterday the following have reported to Mrs. Douglas Balthis, secretary of the committee on finding lodging places for visitors at the Tractor Show, that they will accommodate lodgers next week:

Armstrong, J. M., 414 N. Maryland	2
Blankenship, J. M., 1317 N. Brand	4
Brosseau, G. A., 1223 Campbell	2
Campbell, Mrs., 316 E. Dryden	4
Cotton, Mrs. M., 111 S. Central	2
Creel, Mrs., 126 S. Jackson	2
Goss, H. D., 510 E. Harvard	2
Haywood, E. H., 307 N. Kenwood	2
Howarth, Mrs. J., 343 N. Isabel	2
Johnston, S. B., 536 W. Patterson	2
Hutchinson, C. E., 246 N. Orange	4
Kelsey, G. W., 430 Burchett	1
Kent, R. L., 522 N. Central	2

VERDUGO WOODLAND

TRACTOR SHOW HAS WONDER-
 FULL SETTING UNDER THE
 TREES

When the purling fog which clouds the canyon's heights withdraws its misty veil from over Verdugo Woodlands early Monday morning, sunrise will find the National Tractor Show ready for its first day throngs.

Sometime during the morning, the gates of the colossal entrance will swing open and the greatest event of its kind in Glendale will be under way. For casual observation reveals that this display of farm implements which today and tomorrow is being assembled is not only an epoch in Glendale's history, but an initial exhibit of its kind in the West!

Under their own power, on mammoth motor trucks, on long strings of flat cars the powerful titans of the farm are arriving and being placed in their allotted tracts under the shade of the beautiful oaks which abound in the canyon woodland. There are 30 horse power tractors and one horse power tractors, "muleys," caterpillars, tracklayers, non-skids and ground grippers; fuel oil burners, kerosene combustion and gas engine propelled types, all vying for the attraction of possible dealers or farm users.

While lacking the gilded setting of an automobile show, the heavier monarchs of machinery enjoy the same substantial air of modernity, comprise the latest models and improvements of their kind and their representatives evince the same enthusiasm in displaying the good points of their product as prevails at the motor festivals.

Perhaps to the people of Glendale who out of curiosity will visit the show to see the most modern methods in farming, the ego exhibited by the salesmen will seem imperious. But not so for the visiting manufacturers, agents and ranchers who are already arriving in the Southland from all parts of the country to see and learn, to buy and to sell.

Among the many side issues which are advantageously put forth as auxiliaries to the tractor on the farm are plows, discs, harrows, cultivators, planters, grinding mills, silage cutters, blowers, threshers, land levelers, trailers, fertilizer spreaders, engines, sprays and pumps, not to forget the water wagon which holds sway by the babbling brook—a gentle reminder of the desert aridity.

The last days preceding the opening of the big show, which has the earmarks of a country fair, without the usual retinue of livestock, farm products, and the like, are all hubbub. Painters and plumbers—getting their fabulous daily stipend—are racing with carpenters and mechanics in making everything ready. Decorators are doling up the woodlands' dells while the old dance hall has been converted into a dining hall for the accommodation of 100 visitors at a setting.

And well may the dance hall be discarded for feeding the hungry exhibitors and their hosts of followers for dancing is too light for such a weighty matter as tractors! Then who will want to dance with a foot full of sawdust which has been sprinkled throughout the park. It is very advisable to get out the high shoes—or hiking shoes if you have them—for the park in its rusticity resembles the furrowed field underfoot.

As usual, many of the exhibitors are having the "grief" which accompanies similar events, mainly due to misjudging the enormity of work to be accomplished between now and Monday. Twenty carloads of machinery are due in on the Salt Lake Route; the Glendale & Montrose is switching special freight cars this evening and tomorrow with more machinery and the Southern Pacific station is the busy scene of unloading exhibits from the North, some of which are delayed by tunnel trouble in the Tehachapi Mountains.

As the writer was wandering through the busy scene of the show this morning, a salesman driving a truck to be exhibited called out: "Where am I going?" "I'm sure I can't tell you," I replied.

But one of the genial aides of the management soon had him located and happy and that's the way this National Tractor Show augurs to be—a happy event for everyone concerned.

Born, Friday, September 17, 1920, to Mr. and Mrs. Robert A. McAdam, a girl baby weighing eight pounds, nine ounces. She has been named Barbara Gene. Mrs. McAdams was Miss Ruby Farnsworth.

FURTHER BOMB OUTRAGES FEARED

ANARCHIST FIGHTERS BELIEVED RESPONSIBLE FOR THE
 NEW YORK WALL STREET EXPLOSION

(Special Service to Glendale Evening News)

NEW YORK, Sept. 18.—New bomb outrages were feared today following the discovery of pamphlets indicating that the "Anarchist fighters," who mailed scores of bombs to prominent citizens in May, 1919, were responsible for the Wall Street explosion. Every resource of the Federal government detective system which resulted in the downfall of many German plots and the capture of spies during the war was thrown into the hunt today.

The investigation is being conducted under the personal charge of Attorney General Palmer, who conferred with Wm. J. Flynn, head of the Secret Service, in New York today. Palmer's trip here followed discovery of anarchist pamphlets in a mailbox near the scene of the explosion. The pamphlets said, "Remember we will not tolerate any longer. Free the political prisoners or it will be sure death for all of you." Signed, "American Anarchist Fighters."

Federal agents were today running down the men who owned the horse and wagon which carried the explosives.

The grand jury investigation will be resumed Monday, it was announced.

HAMILTON, Ontario, Sept. 18.—Edward Fischer, who wrote the warning letters to Wall Street, was being held in jail today pending deportation to the United States or commitment to an asylum here. It was believed the American authorities will succeed in having him returned to New York despite the efforts of Robert Pope, his brother-in-law.

SAN FRANCISCO, Sept. 18.—A piece of iron pipe about 18 inches long, which police declared they believed was a bomb, was found at the foot of Twenty-sixth street here today.

The supposed bomb resembled very closely the supposed form of the bomb which exploded here on Preparedness Day in 1916.

Working on a theory that the bomb may have been prepared to blast the San Francisco financial district, the police immediately started a rigid investigation.

CALIFORNIA CENSUS FIGURES 3,426,538

CENSUS BUREAU MAKES PUBLIC 1920 REPORT; ADDITIONAL CONGRESSMEN DUE STATE

(Special Service to Glendale Evening News)

WASHINGTON, Sept. 18.—The Census Bureau this morning announced the 1920 population figures for the state of California as 3,426,538. This is an increase since 1910 of 1,048,987, or 44.1 per cent.

Revised figures for San Francisco are 506,676, an increase since 1910 of 89,874, or 21.5 per cent. San Francisco was previously announced as 508,410.

SAN FRANCISCO, Sept. 18.—California will gain four and possibly five additional congressmen on the basis of her new census figures, unless the present apportionment of population is changed by Congress, officials here declared today after the California population figures were announced.

In 1910 the apportionment of congressmen was made on a basis of one representative for every 215,000 population.

HUGHES ATTACKS LEAGUE

TRENTON, N. J., Sept. 18.—In a speech vigorously attacking the League of Nations covenant as it stands, particularly Article 10, Charles E. Hughes, former Supreme Court justice, and candidate for the presidency in 1916, today signalized his entrance into the campaign for Harding and Coolidge. "Article 10 is a mischief maker," he said in addressing the New Jersey state convention. "It belongs to the category of alliances to make war, and is opposed to American principles. It will serve to make disputes and not to heal them. Article 10 is really the vice of the covenant."

Foothill Club

The Foothill Club was charmingly entertained by Mrs. Perce H. Curtis at her home, 1331 North Maryland avenue, Friday afternoon. Auction bridge and five hundred furnished much amusement. The top score at auction was won by Mrs. Clarence Crawford, 1219 Central avenue, and Mrs. A. M. Hunt, 1201 Viola street, won at five hundred.

After the games a delightful luncheon was served.

About fifteen members were present, and the following new members were received into the club: Mrs. W. Bell, 1527 North Maryland avenue; Mrs. Christie, 1325 North Central avenue, and Mrs. Blankenship, 1323 Brand Boulevard.

Birthday Honors

Dr. Clyde Monroe Crist, pastor of First Methodist church, was given a unique surprise party last Tuesday in celebration of his birthday. He was called away in the afternoon to Genesha Park, Pomona, and on his return found his porch covered with flowers, from roof to mail box. Bou-

quets were placed in every nook and corner of the veranda. From 4:30 to 9:30, the members of his church called, bringing flowers. The different departments of the Sunday school were all represented by gifts. Tokens of appreciation kept coming in all the afternoon, showing how the people of Glendale regard Dr. Crist and his constant, unselfish service to church and community.

Mrs. Merritt Dies

Mrs. Devora E. Merritt, aged ninety years, died Friday, September 17, 4:30 o'clock a. m., at the home of her granddaughter, Mrs. James McLean, at 1135 East California avenue. Some weeks ago she fell and received serious injuries to her back and one hip. From this she never recovered. Deceased was born in New York state, and came to California thirty-five years ago. Her home has been in Glendale for twelve years. Funeral services will be held Monday, 2 o'clock p. m., at The Little Church of the Flowers, Rev. E. E. Ford officiating, and the Pulliam & Kiefer Undertaking Co. in charge. Interment will be in Forest Lawn.

TOWNSPEOPLE FETED

MRS. W. D. M'RAE ENTERTAINS
 OLD FRIENDS FROM MOLINE,
 MICHIGAN

Mrs. W. D. McRae entertained a number of friends at her home, 634 North Kenwood street, Friday afternoon. This was an especially delightful occasion, since all of the guests were natives of Moline, Mich., and enjoyed talking over old times and old places.

The hostess is herself from Moline, and was glad to find that Glendale had adopted five other of her hometown sisters. Ice cream and wafers were enjoyed by the guests, who were: Mrs. Adam Clemmens, 334 Hawthorne; Mrs. Earl Schuyler, 344 Ivy; Mrs. J. I. Wernette, 1330 North Louise; Mrs. Katherine Sooy, who has recently located at 123 East Elk avenue; Mrs. William Sawyer, who has not yet located permanently, and Miss Flora Bates of Santa Barbara, a sister of the hostess.

Concerts Nightly

Drew Nicles, chairman of the entertainment committee for the week of the Tractor Show, was instructed last evening at a meeting of the ways and means committee to provide a band concert for every evening next week. Mr. Nicles reported that he had secured the services of the American Legion Band, and the request of the committee would be complied with. The place where the concerts will be held has not been definitely decided, but it is presumed that they will take place on Broadway between Brand Boulevard and Orange street. Mr. Nicles informed the committee that he was making provisions for other specialties in the way of entertainment.

Street Petitions

Two petitions for street extensions in the old Tropic district are now being circulated. One is for the prolongation of Park avenue east to Verdugo Road, midway between Acacia and Palmer avenues. The intention is to eventually continue it to intersect Sycamore Canyon Road. The other petition is for the extension of Garfield avenue east from Glendale avenue to Adams, between Windsor Road and Acacia avenue, with the probability of eventually connecting with the short stretch called Garfield avenue, now extending one block east from Verdugo Road.

Sudlow Funeral

Funeral services for Clyde Sudlow, who passed away at a Los Angeles hospital Wednesday evening following an accident in which he was burned by a high voltage electric wire have been postponed until Wednesday morning of next week at 10 o'clock on account of relatives who are expected from the East to attend the funeral. Services in charge of the L. G. Scovern Co., will be held at The Little Church of the Flowers and interment will be in Forest Lawn Memorial Park.

RED CROSS DOINGS

MRS. HAYWARD AND COMMITTEE WORKING TO ADD TO DOLLAR-A-YEAR LIST

Mrs. E. W. W. Hayward informed The Evening News this morning that there will be a conference of Red Cross workers of Southern California and Arizona next Monday and Tuesday, at the Friday Morning clubhouse in Los Angeles, for the instruction of workers who are planning the annual roll call of dollar-a-year members, which is to be put over November 14 to 22. Mrs. Hayward is director of this work for Glendale and has already appointed on her committee Mrs. Ann P. Bartlett, president of the local Red Cross Chapter; Mrs. Mabel Franklin Ocker, Mrs. A. W. Tower, Mrs. Bessie Chester, Mrs. G. H. Lowe, Miss Ida Myers, Mrs. A. M. Williams, Mrs. W. W. Brown, Miss Gertrude Gibbs, Mrs. Lillian Dow, Mrs. Hoedinghaus, Mrs. Cate, Mrs. Holbrook and Mrs. L. W. Bosserman.

More ladies will be added to this committee, but all the above named expect to attend the conference part or all of the time Monday and Tuesday, and especially will all be there at the luncheon on the last day. Glendale did not show up very well at last year's roll call, Mrs. Hayward said, and it is the aim of this committee to largely increase the dollar-a-year membership.

TRACTOR SHOW

GROUNDS BEING PUT IN SHAPE
 RAPIDLY; MANY EXHIBITS
 PLACED

A visit was paid to Verdugo Woodlands yesterday afternoon by an Evening News reporter for the special purpose of noting what progress has been made toward having everything ready for the opening of the great National Tractor and Implement Show next Monday morning.

The first thing noted was the varied material for the grand entrance way—tall columns, chapters, vases, urns, lions and other shapes awaiting only the putting together on the plan they occupied before when used in a moving picture scene to make a most imposing classical group. Some of the columns were already in place and all will be ready for the opening. Steps will lead down from the walk bordering the west side of Canada Boulevard, a little north of the concrete bridge, and connect with a wide walk stretching to the columned entrance. All entrants to the grounds except those in conveyances will go in this way, buy their tickets at the booth in the center of the walk and then pass through the entrance into the grounds. Manager Guy Hall's office will be just to the left and all matters pertaining to affairs on the grounds will be referred to him.

Autos will enter north of the grand entrance, into an extensive auto park where there is space for thousands of machines.

South of this and separated by a wire fence, is the space for the exhibits of which there are more than 400 on the grounds already, placed there by 100 or more firms. These comprise nearly every make of tractor, some of them never before seen on this coast, motor trucks, accessories of all kinds and farming implements from a garden plow to the mightiest threshing outfit. One big tractor with disc harrow attached was noted mounted on rollers connected by endless chains so that when the power is turned on to the tractor, every wheel revolves as if the ground was being traversed and the disc performs as if it were tearing up the soil.

There are baby tractors for garden use and giant caterpillars for great stretches of ranch acreage. There are single plows and plows in gangs, harrows, discs, rakes, grain drills, and the like. A big cement mixer occupies a prominent place. Many of the exhibitors are not satisfied to place their machines on the bare ground in their allotted spaces, but are building fancy enclosures, booths and such. And over all these varied exhibits wave the full-leaved branches of the trees which cover this part of Verdugo Woodlands so thickly. Certainly no more beautiful location for this Tractor Show could have been found in all California.

More exhibits are arriving con- (Continued on Page 6)

Mrs. Avery Passes

Mrs. Jane M. Kirk Avery died this morning at 5:20 o'clock, at 720 East Maple avenue, where she made her home with an adopted son, Frank Becker and family. She was seventy-three years of age and a native of Pennsylvania, and had lived in Glendale only five years. Up to her last illness she was a devoted worker in the Presbyterian church. Funeral services will be held Monday at 3 o'clock p. m., in The Little Church of the Flowers, Rev. W. E. Edmonds officiating and the Pulliam & Kiefer Undertaking Co. in charge. Interment will be in Forest Lawn.

MUSIC STUDIO

WESLEY KUHNLE TO BE IN CHARGE OF L. A. CONSERVATORY BRANCH

Wesley Kuhnle announces in the advertising section of The Evening News today, the opening of a branch studio of the Los Angeles Conservatory of Music and Arts at 551 East Cypress street, Glendale, of which he will be in charge. Mr. Kuhnle is a concert pianist, organist and teacher. He is a "fellow" of the American Guild of Organists, is a graduate of the U. S. C. College of Music and studied for a number of years with the famous Polish pianist and pedagogue, Jaroslaw de Zielinski. Mr. Kuhnle has resided in Glendale for the past two years and is known here as well as in Los Angeles musical circles as an accomplished musician.

HUM OF TRACTOR

TAKES THE PLACE OF THE TEAMSTER OF BY-GONE DAYS IN FIELD

Times have changed in the past few years and the horse teams of old have, now more than ever before, begun to disappear from the farms and ranches and in their place the steady hum of the tractor is beginning to be universally heard instead of the teamsters' language of by-gone days used to encourage their tired horses together with the sharp crack of the whip.

The Fordson Tractor has again taken the place of a team this time in an entirely different use, that of mowing with a six-foot cutting blade. It can mow in three speeds depending largely upon the thickness of the hay. In low it will travel 2.2 miles per hour, in intermediate 3 miles per hour and in high 6 miles per hour. As an experiment in a heavy cutting of alfalfa a Fordson Tractor was driven six miles per hour and still cut as well as it did at a lower speed. The best cutting speed, however, which is advised by the Fordson Tractor expert is three miles per hour. As a comparison a team can only travel 1½ miles per hour and then require a rest every few minutes while the Fordson Tractor keeps going indefinitely or until the driver becomes tired.

The mower is very easy to install and regulate, the mower being bolted on where the belt pulley is attached, and the mowing attachment at the "pitch" or commonly called "suck" is adjustable from the seat of the tractor and in the same manner the mower may also be raised or lowered from the seat of the tractor as when traveling from field to field.

This makes the attachment for mowing on the Fordson Tractor a one-man proposition which coupled with the fact that the cutting blades can be operated when the tractor is not in motion makes two exclusive features which no other tractor possesses, all other makes of tractor requiring two men to handle the outfit, one to run the tractor and the other to regulate the mower. While on other tractors the running of the blade is driven by the turning of the wheel instead of the direct drive as is the case of the Fordson.

It is interesting to note that the average number of acres one team can mow in an eight-hour day is approximately 7 to 8, while the Fordson Tractor can mow more than twice as much or 5 to 18 acres per day. This makes the Fordson Tractor far the cheapest mowing power that has been invented to date.

MOTORING THIEVES

DATE GROWERS APPEAL TO AUTOISTS TO LET FRUIT ALONE

Motorists passing through the Imperial Valley and other date-growing communities of California are stripping the date growers of thousands of dollars worth of profit, according to a report made public yesterday by the Automobile Club of Southern California.

If the date palm districts were infested by locusts, each locust carrying off a single date, the effect would be the same as that created in the past few weeks by travelling motor parties, says a complaint registered with the club from one of the biggest date companies.

In its appeal to motorists to let the dates of California alone, the club points out that the dates are worth from 50 cents to \$1 a pound "on the hoof" to the grower, and that it doesn't take many good-sized dates to make a pound.

The seriousness of the situation came to light yesterday when a group of date-growers near the Salton Sea threatened to take steps to forcibly "detain" motoring parties who are caught "borrowing" dates in that vicinity.

Just what punishment would be meted out to the auto owners is not stated in the word received by the Auto Club, but it is indicated that motoring thieves would be held over in the desert until they had decided to mend their ways. Probably the tires would be taken from their cars or something like that.

Big Engines—Or Little

What will the automobile look like four years from now? Of late there has been a tendency towards the car with the husky, gas-consuming motor—the big brute that you seldom use at anywhere near its maximum power, but that you like to know is there under the hood ready to slam you through space any time you feel like stepping on the throttle. This kind of car is especially popular in a city of hills like San Francisco or in a country of great distances like Southern California where excess

A Goodyear Tire Record

Nushon Parsepian (Nish), the well known taxi man, bought from us some time ago a 32x4 Goodyear Cord Tire for his Studebaker Light Six. When the tread was worn through the tire was brought to us for retreading. It had then gone over 26,000 miles. A short time ago he turned in his car on a new one. This tire had then done 7000 miles more on the retread and was still good.

THINK OF IT! OVER 33,000 MILES ON ONE TIRE IN TAXI SERVICE!

But why not? It was a Goodyear and was well treated. Nish gets an average of over 18,000 miles out of his Goodyears. He will tell you that **Monarch Service** makes this splendid mileage possible.

HEADLIGHT LAW

LEGAL DEPARTMENT OF AUTO CLUB GIVES INFORMATION

Motorists who want to know just what they can and cannot do to conform with the state headlight law so as not to be arrested in the gigantic state-wide campaign to eliminate headlight glares which goes

into effect next week, are answered as follows by the legal department of the Automobile Club of Southern California:

- To conform with the law, you must:
1. Use an approved glare-controlling device.
 2. This device must be used in conjunction with a candle power light bulb not in excess of that permitted with the device.
 3. Before putting on the device, adjust the lamps according to the

instructions issued by the state examining board on the matter.

4. Spotlights must be firmly "anchored," so they cannot be moved by the driver, and the rays, at 100 feet from the car, must not reach higher than forty-two inches from the ground.

- You must NOT:
1. Drive without an approved device on your headlights.
 2. Must not drive without lamps tilted at legal angle.
 3. Must not have more than candle-power light allowed for device.
 4. Must not have movable spotlights.

If motorists are in doubt as to the law on any of the questions they may receive free advice from the Auto Club on the matter at the headquarters or at any branch office.

HUDSON "IN SERVICE"

HONOR IS GIVEN CAR ACCORDING TO R. C. CHAMBERS, JR., LOCAL DEALER

Service and success have the same initial letter and if you practice the first and second is bound to follow according to R. C. Chambers, Jr., of Chambers & Felts, dealers in Hudson cars. "There are not only people in the service of our country now but we say that airplanes, dogs, motor trucks, and many other things are 'in the service.' To a Hudson motor car has come the honor of being 'in the service.' It was purchased by the United States Senate, and is their first official car. It stands outside the Senate chamber during the day when that body is in session, and is used by senators going about the city on official business."

Women are warned not to write any postscripts on the ballots on election day under the penalty of having their votes thrown out.

The Democrats may not be assessing federal officeholders, but they are not adverse to saying that they want officeholders to be speedy in sending in "voluntary" contributions.

NEW SPEED LAWS

NEARLY EVERY CITY IN STATE WILL BE FORCED TO REVISE ORDINANCES

New speed laws governing motorists throughout the state of California are now in effect, and auto owners are just waking up to the fact.

Every city speed law in the state which does not conform to the state law itself has been automatically repealed by the recent ruling of the Supreme Court.

So far as the state speed law is concerned, there is no such thing as a "city," point out officials of the Automobile Club of Southern California, the definitions of "congested district," "closely settled" district and "open spaces" taking the place of cities.

According to the Supreme Court, cities have no power to make speed laws of their own, and all such existing laws are null and void. The state law for business sections is fifteen miles an hour. No city can say it shall be twelve miles an hour, or that motorists shall maintain a speed of less than ten miles an hour over street crossings.

This decision is the result of efforts of the legal department of the Automobile Club to secure uniformity of speed laws throughout California, so that there shall be no more confusion in the minds of the motorists nor no more profiteering on the part of unscrupulous municipalities who wish to capitalize their prerogative in setting traps for visiting motorists and then fine them for violating some weird city speed law.

Motorists declare that this is one of the greatest triumphs in the history of the auto organization. The legal department of the club pointed out yesterday that the new regime is in effect today, and will remain in effect.

It means a revising of speed districts by practically every city and town in the state to conform with the state law.

Every active politician is a crook to the active politicians in the opposition party.

FACING THE FACTS

FOOD FOR THOUGHT FOR THE CALAMITY HOWLER AS SET FORTH BY FORD MAN

It is very peculiar, this human nature of ours, because 90 per cent of the men and women are very quick to see the clouds of trouble and to miss the bright sunshine of pleasure. Let a rumor emanate from an insane asylum that there is going to be a failure of the crops, and the multitudes commence to mourn right away. Seems as if people like to be in trouble.

And so it is that there has spread over the country an almost universal belief that we had to have a financial panic; we must have a commercial depression; we were due for a period of hard times; Hades was to pay and no pitch hot. Rumor upon rumor of a shortage in crops, shortage in mechanical production, shortage in labor; in fact, it seemed as if the whole world was going to be so dog gone short that it was liable to drop into a hole and disappear. The prophets of cheerfulness were like the proverbial hen's teeth—few and far between.

Now let us look at the facts, for never before in the history of civilization has mankind had a more roseate future to vision, and this applies to every part of the globe, as we could prove if we had the time and the space.

But let us just take America. Never in our history has there been so much money, real, honest-to-goodness cash, in the United States as there is today. This country has been growing in wealth by leaps and bounds, because we have the best educated people in the world; the most moral people; the most humane people; people with more initiative than obtains among any other peoples on earth. Then we have a country whose unlimited natural resources represent wealth untold. We were coming to the mastership of the wealth of the world before the war. For instance, in 1913 this country produced \$14,000,000,000 more than it consumed. Then the war came on and our production was

MORE MILEAGE

OVERLAND BUILT TO SAVE GASOLINE, SAYS MR. LAWRENCE

One reason that the Overland is such a popular car is that it is essentially a gas saver, says A. B. Lawrence, Glendale representative of that car. Overland manufacturers became concerned about the cost of gasoline and determined to build a car that would be so designed as to use the smallest possible amount of gasoline. The result was months of experiment and millions of expense before the end was attained.

"Built of light alloy steels and mounted on the famous Triplex springs the Overland gives unheard of gasoline mileage," said Mr. Lawrence. "Those who are familiar with motor car construction appreciate this feature," he said.

hurried until in 1917 we produced \$18,000,000,000 more than we consumed.

We loaned to the nations of Europe in excess of \$30,000,000,000. With the exception of some \$3,000,000,000, this money remained in America and was spent by the borrowers in our markets. It was not taken out of America—it is here still. Since the war closed hundreds of millions of gold have been sent to the United States by foreign countries in payments on their debts.

Then in 1919 our production was the largest in the history of the country. We produced more goods than we did in 1917, and we had an eager market for everything we produced, and all we sold brought the money to America—it's here.

Take this statement by John Fletcher, vice president of the Ford Dearborn National Bank of Chicago: "The United States is far and away the richest country in the world. The aggregate deposits of its banks are billions more than the combined deposits of all the banks in the world outside of the United States. We have more actual cash than any other nation and in the last few years have

GET THE HABIT— WHEN YOU THINK REAL ESTATE, THINK OF GUTHRIE.

Here are three pieces you don't have to "think" about—just ordinary human intuition (not to mention the "horse" variety) does the job. 5 room modern bungalow, breakfast room with separate outside entrance, usual stereotyped built-in stuff including glass doors between front and dining rooms. O, yes! Breakfast room so arranged would make dandiest den or sleeping room for the "kiddies." This place in A-1 shape, granite roof, garage, lot 50x125. South of Colorado. \$4000. \$1500 handles.

3 room modern bungalow—nearly four. Cement basement, lawn, front and rear, double garage, entrance from alley. Nicely fenced. 150 feet from greatest traffic boulevard in Southern California. Path of development. Built three years. O, Boy! Look! \$3050. \$1500 handles.

The owner said: "Von, sell that lot of mine on Vine street and sell it price—\$525 cash. Had to ask him twice to repeat it. Could hardly believe 'them words.'" Nice \$4000 to \$6000 homes around it. Adjoining lots selling for \$600 and \$650. Easy boys. One at a time.

See VON OVEN with Charles B. Guthrie at "GUTHRIE CENTER" Los Feliz and Brand. Phone 411. After 6:30, 1224-R. "We Never Slumber"

FOR SALE—You can make one-half of your living on this half acre. 3 room Calif. house, lot 80x242, covered with fruit. Some chicken yards. One block from car line. \$3000. \$1000 cash, balance \$35 per month.

Something good and good for someone. 9 rooms. A "cracker jack," that's all. Close to business section and high school. \$7350. \$4000 cash, balance arrange.

Let your money do the work. Invest \$8000 in this income apartment house and draw down \$1548 a year. Just so easy.

Lots \$750 and up. \$50 cash, \$15 per month.

Fire insurance, lowest rates. Hal Davenport or John Strother, 1247 S. Brand Glendale 255-J

Ben C. Glasscock and family of 360 West Elk avenue, left Saturday morning for a three days' camping trip in the mountains.

Miss Maude E. Dyer returned yesterday to her desk work with the Monarch Auto Co. after a two weeks' vacation.

Russel Tummel of 1504 South Brand Boulevard, is leaving tomorrow evening for San Francisco on a business trip.

Henry Johnston yesterday took out a permit for the erection of a five-room residence and a garage at 119 North Everett, to cost \$5000.

Mrs. C. M. Stocker and son Charles of Tyler, Texas, are visiting in the home of Mrs. Stocker's sister, Mrs. J. Hinckley, 115 1/2 South Brand Boulevard.

Miss Elizabeth Edmonds of 121 South Cedar street, is at Long Beach, the house guest of Mr. and Mrs. and Miss Mildred Carmichael, formerly of Glendale.

Frank S. Mulford and wife who moved last week from 640 East Harvard to Van Nuys, were in Glendale yesterday visiting friends and looking after business affairs.

Mrs. Frank M. Crandall of Long Beach, accompanied by her little son Gail, is here for a visit with her sister, Mrs. B. L. Cline of 720 East Windsor Road.

John Bloss of 559 Hawthorne is able to be on the streets walking with a cane, after being laid up six weeks from injuries received when he was run over by a truck at Sixth and Main streets, Los Angeles.

Miss Alice McCoy of 215 South Central avenue, left Friday for Maricopa, Calif., where she will teach this winter. Miss Leota Snyder, 112 Arden avenue, is to teach in the same school.

Booth W. Franklin, who is out here from his Michigan home to spend a year or two with his uncle, J. H. Franklin of 246 North Central avenue, is back in Glendale after spending several weeks in the mountains above Fresno.

The friends of Mrs. M. P. Harrison, Sixth and Grand View avenue, are glad to learn that her father and sister, H. C. Brown and Dr. Laura J. Brown, have moved to Glendale from Lincoln, Neb., and are to be permanently located here.

Miss Frances Lowell of San Francisco is the guest of her grandmother, Mrs. M. F. Proctor on North Louise street. Miss Lowell has just been discharged from the Letterman General Hospital in San Francisco, where she has been engaged in medical and surgical work.

C. E. Kimlin, manager of the Glendale Sanitarium, who lives at 219 North Isabel, is enjoying a visit from his mother and sister, Mrs. Rosa Kimlin and Mrs. C. M. Christie, who had been living in College View, Neb. After spending a few weeks in Glendale they will go to Fresno to make their home.

Mr. and Mrs. W. N. Bott of 667 Patterson avenue, had as their guests Thursday, Mr. and Mrs. Will Ellis. Mrs. Ellis, who is a sister of Mr. Bott, is a recent bride, her marriage having occurred last Tuesday in Los Angeles. She and Mr. Ellis left yesterday for Little Rock, where they will make their home.

A recent survey by the California Immigration and Housing Commission in eighteen cities, ranging from 1500 to 15,000 population, disclosed that a total of 7810 new homes are needed in those cities alone. This means that many times this number of homes are needed in the entire state. We are building at an unprecedented rate but are not anywhere near keeping up with the demand.

The new buildings to be erected on the Glendale Union High School grounds according to the plans prepared by Architect C. C. Rittenhouse, are two single and four double classroom bungalows, a locker room and a girls' gymnasium building. The specifications call for concrete foundations, redwood siding, shingle roofs, pine trimming, pine and maple flooring, gas heating. These are to be paid for out of the \$60,000 bond issue recently voted.

A contest between the Men's and Loyal Women's classes of the Christian Bible school to see which could secure the most new members in three months came to an end last Sunday with the women largely in the lead. To celebrate the victory the members of the men's class gave a supper last night at the home of I. C. Wasson and wife, 623 East Acacia avenue, to which all the men and women of the church were invited. Forty-two responded. The men furnished the eatables, but called on the women to help prepare it.

CONCLUDING

Some of the readers of my last two "ads" may not know me personally, and may think I am trying to work some scheme or fool somebody. To all such, as well as to my friends, I want now to make clear the fact that the proposition I presented is nothing but a thirty-year endowment—plain and simple. I have only put it in a little different way in order to try to make you see more clearly the great value in it. I regard it (or one near it) as the very best contract for the average man—being a mean, or compromise, between a life policy and a short endowment.

Such a policy can be paid up in a shorter period, if desired—in 20, 15 or 10 years—but its maturity should not be earlier than age 60, in my judgment.

"THE HOME LIKE CHURCH"

Advertise it, or advertise for it in the Evening News.

Mrs. J. McIvor, 1459 East Colorado street, and her four sons, returned to Glendale this week after several months' absence in the East.

Mr. and Mrs. E. W. Lyon, 214 North Louise street, had as their dinner guest, Miss Pansy Corp of Los Angeles, Saturday evening.

Glendale welcomes Mr. and Mrs. William Sawyer and family, who have come here from Grand Rapids, Mich., and are looking for a permanent home.

Miss Flora Bates of Santa Barbara will return to her home Monday morning after a two weeks' visit with her sister, Mrs. W. D. McRae, of 634 North Kenwood.

Mrs. M. L. Anderson, 1450 East Colorado street, fell on the pavement in front of her home, recently, while hurrying to catch a car, and was quite badly hurt. Her friends are glad to know that she is improving rapidly, and suffered no permanent injury.

Mrs. Fred Furbeck of 215 South Brand, left yesterday to spend the week-end in San Bernardino, where she expects to meet a lady who has just come over from London, England. This lady is a friend of the last remaining member of Mrs. Furbeck's family and brought messages from her.

Marie Bondy, who was maid and chauffeur for Mrs. L. R. Rambeau of 122 West Lomita avenue for some years, has joined Gail Henry's company to study cutting and continuity in film work. Her father, Leon J. Bondy, was a Moor of old Spain who married the daughter of a noted French professor against the parents' wishes. He was stage director for David Belasco for a number of years and the little Marie imbibed a love for the work of making pictures from being with him at his work. The family lived on South Glendale avenue for a number of years, the father dying a few months ago.

T. J. Fambrough of 231 West Elk avenue is carrying his left arm and shoulder in a sling as the result of an accident Thursday evening. He was going south on Central avenue riding his bicycle and when near the Mission Supply Station he was run into by Clyde St. Clair's machine. Clyde was coming north, and, wishing to turn in to the supply station looked back to see if there was a machine behind him, so failed to see Mr. Fambrough on the bicycle, and ran into him. Mr. Fambrough was thrown between the wheels of the machine and struck the pavement so hard that his left collar bone was broken. His wheel was smashed to pieces.

New Ambulance

Pulliam & Kiefer, undertakers, have added to their equipment a fine new ambulance, which was received Thursday and will be used today for the first time. It is driven by a fifty-two horsepower engine and has a wheel base of 145 inches. Double springs and worm drive are two features of the running gears. Inside is a wheeled cot which can be adjusted to any angle, a plush covered side bench, dome light and a complete first-aid outfit. This ambulance is especially for hurry calls in accident cases.

Death of Mrs. Ireland

Mrs. Anna Emma Ireland, aged sixty-two years, died at her home, 339 Oak street, yesterday, 11 o'clock a. m. She came to Glendale with her husband, Charles F. Ireland, nearly two years ago, from near Seattle, Wash. She has been ill for many months. The husband, two sons and a daughter, survive her. One of the sons, William M. Maitland, is in Glendale, living at 349 West Elk avenue. The daughter, Miss C. Maitland, lives in Burton, Wash. Funeral services will be held Sunday, at 3 o'clock u. m., in the Jewel City Undertaking Co. parlors, Rev. W. E. Edmonds, officiating. Interment will be in Forest Lawn, the following day.

Real Estate Partnership

Changes in real estate firms are frequent these days, one of the latest being the partnership established between E. P. Hayward and Harry E. McCartney, with business office at Mr. Hayward's headquarters, 139 North Brand Boulevard. Mr. McCartney, the new member of the firm has been a resident of Glendale for a matter of ten years, so has a wide acquaintance among our people. Messrs. Hayward and McCartney are associated with the firm of Edwards & Wildey.

Back to School Days

Back to school days are here. More work and less help for Mother. Clothes to be kept in shape, youngsters to be dressed and fussed over, little folks too busy and excited to be much use around the house.

But fortunately for Mother she has no longer to worry about the clean clothes problem—each week she is sending her family bundle to us and she is always sure of a liberal supply of clean things without slaving over a wash tub or watching a careless laundress.

Let us take over YOUR washday worries. A minute at the phone will bring one of our wagons to the door.

TRACTOR SHOW

(Continued from Page 1)
stantly by truck and train. It is expected by Manager Hall that there will be 150 or more exhibitors and at least 500 exhibits by the time the show opens.

Nearly every manufacturing city in the country is represented by some kind of machinery or accessory and big men from the great tractor manufacturing of the East are out here to learn of the vast field for tractor operation California affords, something they had the vaguest of ideas concerning, heretofore, Manager Hall says.

It is an education in the possibilities of farm machinery to go through these hundreds of exhibits and learn what marvelous things have been done and will be done to increase the area of production by these tractors and their kindred implements in preparing the ground, seeding it, cultivating and then garnering the yield. No one should miss seeing this great tractor and implement show which has been brought to our very doors.

NOTES

Arrangements have been completed by Dru Nicoles and his committee by which concerts will be given evenings during Tractor Show week by the American Legion band in a space which will be roped off on West Broadway between Brand and the alley. The band has been practicing assiduously of late and will furnish fine music.

Comfortable rest rooms in the Central Building, upstairs, have been

secured for the accommodation of visitors, according to Fred Deal.

The bureau of information on housing which has been located in the City Hall, under the charge of Mrs. Douglas Balthis, this week, will be moved to the Pacific Electric station Monday.

The committee on auto parking has arranged for ample space north of the exhibit grounds. E. K. Barnes of this committee states that two gasoline filling stations are to be erected, water hydrants installed and arrangements made for free air for tires. Two watchmen with police powers will guard the parking grounds. Every convenience for camping out in the parking grounds will be supplied.

BATTERY INSULATION

"It seems strange to many, even in the automobile trade," says E. W. Cizek, Willard Service Station dealer, "that insulation should be as important as battery plates, yet such is the case. Plates cannot continue to take charge and supply current unless they are each adequately protected against the neighboring plates on either side.

"A great part of the difficulty in manufacturing satisfactory battery insulation results from the fact that the insulation must permit current to pass freely yet must completely insulate one set of plates from the other.

"Threaded Rubber Insulation has become popular among car builders and users because it has such a rare combination of desirable qualities."

Don't fail to visit
the Fordson
tractor exhibit at
the National Tractor
Show, to be
held September 20
to 26, at Verdugo
Woodlands in
Glendale.

When Henry Ford set about building the Fordson tractor he had a thorough understanding of just what it should be and what it should do. His early life on the farm gave him a deep insight into the daily life of the farmer; his mechanical genius saw the type of tractor needed. He began work on a farm tractor thirty-five years ago, and for more than twelve years he experimented over more than 7000 acres of land in different kinds of soil, with different crops.

So he built the Fordson. It is so simple that a schoolboy can operate it. It is low in first cost. It is lowest in operating cost and Fordson parts and Fordson service are always to be had promptly from the dealer.

The Fordson is a profitable investment. It can be used every working day in the year. It is an inexpensive power plant that will lighten your farm work. It has proven its worth on more than one hundred thousand farms not only in operating implements in the fields, but in belt and pulley work. And it doesn't eat when idle.

Don't delay ordering your Fordson tractor. The demand is greater than the supply.

FACING THE FACTS

(Continued from page 3)

obtained an almost unbelievable su-
premacv in trade."

Now with this vast accumulation
of money, how can we have a finan-
cial panic; how can we have a com-
mercial depression; how can we have
hard times? Impossible! There was
naturally a reconstruction period
which must follow after a world con-
flict. After our own Civil War of
1861-65 we were ten years passing
through what was called the recon-
struction period, during which our
money went down to 50 cents on the
dollar.

We are going through the present
reconstruction period inside of three
years, and our money is at a prem-
ium the world over.

Talk about hard times; talk about
depression—nonsense!

Let us tell you that there is 100
years of intense prosperity right at
the doors of the people of the United
States. We won't have men and
women enough to manufacture all
that is necessary to meet the demand.
We are producing more today than
ever before in practically every line
unless it be shipbuilding, and that
will come back. We have billions of
lumber uncut. We have millions of
acres untitled. We have billions of
gold, silver, copper and lead to be
unearthed. Oil is being found in
every state in the Union. All the
resources of the country are coming
to the surface, and we are going to
be the business people that humanity
has ever known, and likewise the
richest.

The financial center of the world
today is in New York. The center
of civilization has passed from the
Old World to the New, and now rests
with us. We are great. We don't
want to boast, but we want to know
out strength and our power. If any
band of bankers or politicians think
they can hoodwink the American
people, they have got a mighty sharp
lesson coming very quick. The in-
telligence of the American people
won't tolerate any speculative crisis.
Honest business is too big in volume,
too intense in value, for the Ameri-
can people to be sidetracked by the
speculators and promoters

Go to it—build and equip and pre-
pare your selves for a future rich in
development, rich in production, rich
in business and rich in profits.

Good wages, lots of work, the profi-
teer eliminated, cheerfulness, cou-
rage, optimism filling every nook and
corner of America. Let there be no
hesitancy—hang your banners on the
outer walls and sound the trumpets
of triumph—success is here.

The fiscal year of the Ford Motor

In Their Place—
What Would
You Have Done?

This was the situation:

The Overland had no serious competition at
its price, and at its price it had no competi-
tion as to quality.

Overland plants were working to capacity,
600,000 Overlands had been sold, and a con-
tinuum was clamoring for more.

Then the Overland organization became
concerned about the price of gasoline.

Now, gasoline is not Overland business, but
it becomes Overland business when the wel-
fare of Overland owners is at stake.

The sale of an Overland is the beginning
and not the end of Overland interest in the
man or woman who buys it.

So Overland designers were told:

"Gasoline is continually going up. Every
cent advance increases the upkeep of the
Overland. Go back to your draughting
boards and bring it down!"

Months and months of experiment!

Millions and millions of expense!

And then, up and out of the Valley of
Dilemma, leaping into the road like a thing
possessed—

A GREATER OVERLAND, built of
light alloy steels, mounted on the famous
Suspension Triplex Spring, and giving un-
heard-of mileage out of every gallon of gas
in her tank!

Overland designers said: "We don't know
what it cost to create, but we do know it
will cost six millions to get ready to use it!"

The answer was: "The public has stood by
the Overland, the Overland must stand by
the public. Go ahead and equip your plants
to produce it."

\$6,000,000 for an ideal!

In the Overland Company's place, what
would you have done?

Some organizations would have said: "The
present Overland is good enough. Why
quarrel with success?"

But the Overland theory is, that nothing is
good enough that can conceivably be better,
and that the great family of Overland own-
ers have placed upon the Overland Com-
pany an obligation, not only to produce, but
to progress!

In that spirit, the Overland was created.

In that spirit, the Overland is presented.

And now, in that spirit, let us get together!

Begin Today To Get More Mileage For Your Money!

and all that goes with it

Corner Broadway and
Glendale Ave.

Company ended July 31, 1920, and
in that year they made 996,660 cars
and 80,008 Fordson Tractors, be-
sides having unfilled orders on file
for more than 200,000 cars and
many thousand tractors, which
means an increase over all past pro-
duction by more than 20 per cent,
and next year their plans are to make
1,250,000 Ford cars and 250,000
tractors. Do you suppose that this
company is guessing? Not for a min-
ute. Other industries are the same.
Get a hustle on. Talk prosperity.
Spend your money—it's no good idle.
Do your share and make the next
century a golden era in which all hu-
manity will be lifted up to a higher
plane of productivity, comfort, hap-
piness.—C. A. Brownell of Ford Mo-
tor Co.

AUTO INSURANCE

VERY MUCH CHEAPER IN CALI-
FORNIA THAN ANY OTHER
STATE

With the third largest automobile
registration of any state in America,
California is to be the key in what
promises to be the greatest insurance
rate readjustment ever instituted, ac-
cording to local insurance authori-
ties.

California is the only state in the
country where rates on automobile
insurance will not be raised 100 per
cent on October 1. Instead, they
will be lowered here on that date,
according to information in the hands
of officials of the Automobile Club
of Southern California.

Where it will cost motorists \$112
to insure a certain make of car
against collision in Oregon, Washing-
ton, Idaho, Montana, Nevada, Ari-
zona, Utah and Hawaii on and after
October 1, the same type of car can
be insured in California for \$48.65.

Additional information secured re-
cently by the Inter-Insurance Ex-
change of the Auto Club in regard
to the contemplated increase of rates
elsewhere by the old board companies
as determined in the recent New
York conference, indicates that
the rates on fire and theft, which
have been materially raised else-
where, will be lowered in this state.

California for some time has led in
the development of the Inter-Insur-
ance Exchange plan of automobile
insurance for motorists through the
motor club medium, the Southern
California organization being the pio-
neer in this line of endeavor.

Sunday Services at
the Churches

PRESBYTERIAN

"Church of the Lighted Cross. W.
E. Edmonds, Pastor. The pastor will
preach both morning and evening.
Morning worship at 11 o'clock. Ser-
mon topic, "Rivers that Run Into the
Sea." As a prelude the pastor will
have something to say regarding pool
rooms in Glendale. Evening service
at 7:45. Organ recital 7:30. C. E.
meetings at 3:00, 6:00 and 6:30.
Sabbath School at 9:30. H. L. Fin-
lay, Superintendent. Fifth annual
Bible conference October 19-25. Dr.
A. C. Dixon, formerly of Spurgeon's
tabernacle of London, will speak
twice daily. Regular quarterly com-
munion service October 17. Musical
program: Morning—Prelude, "An-
dante in F" (Malling), Carolyn Bail-
ey, organist; Quartet, "Sing Unto
God" (Bishop); Soprano Solo, "For
Thee My Soul Ever Longeth"
(Hahn), Chrissie Hammond; Offertory,
"Adagio" (Lysberg); Gospel
Solo, "Bought With a Price," C. Clif-
ford Riggs; Postlude, "Gavotte"
(Scharwenka). Evening—Organ
recital, 7:30; "Romance" (Cours);
"The Marche Pontificale" (Tom-
belle); "Ave Maria" (Verdi); Quar-
tet, "Unto Thee I Will Lift Up Mine
Eyes" (Adams); Offertory, "Idylle"
(Gurlett); Tenor solo, "O Lord, Be
Merciful" (Bartlett), Arthur Reed;
Gospel solo, Mrs. Fannie Marple
Retts; Postlude, "Victory March"
(Flagler).

CENTRAL CHRISTIAN

Morning services at 10:30. Ser-
mon topic, "Don't Rock the Boat," an
exhortation to have faith in this new
age and in its men and women. At
night, 8 o'clock, the minister will
speak on "Fighting the Devil," with
special reference to local and person-
al warfare. A poll of natives of dif-
ferent states will be taken at the
Sunday School hour. This will be
an interesting close to our State Con-
test. Good music and a royal wel-
come await all. Strangers will find
this "The Homelike Church." Our
morning services close before noon.

FIRST METHODIST

Corner Wilson and Kenwood. Rev.
Clyde Monroe Crist, D. D., Pastor.
Sunday School (graded) at 9:30.
Prof. A. W. Tower, Superintendent.
Last Sunday's attendance was the
largest ever recorded in 730 p. m.
Preaching at 11 a. m. and 7:30 p. m.
Morning sermon topic, "Are We
Christians?" Evening theme, "Con-
science, Conviction and Courage."
Class Meeting at 12:15. Rev. C. R.
Norton, Leader. Epworth League,
6:30. Miss Soper, Leader. Inter-
state League (ages 12 to 14 years)
6:30. Mr. L. C. Leeds, Superintendent.
The following excellent musical
programs have been arranged:
Morning—Prelude, "Toccato in D
Minor" (Tederlein); Anthem, "Sing
Alleluia Forth" (Buck); Solo, "Jesus
Only" (Rotolli); Miss Isgrig; Post-
lude, "March" (Boex); Evening,
Prelude, "Cantilene" (Morse); Gos-
pel Quartet, "Now The Day is Over,"
Messrs. Kuehny, Clarke, Haines and
Miller; Anthem, "I Sought the Lord"
(Stevenson); Solo, "He Shall Give
His Angels Charge" (Jeffers), Mr.
Clarke. Next Thursday evening at
6:30 the entire church membership
will gather in the fine banquet hall
for a final "get-together" meeting be-
fore the annual conference. Dr. W.
E. Tilroe, for years a district super-
intendent in Chicago, now Pastor at
Lake Avenue, Pasadena, will be the
speaker. The whole occasion will be
a "look forward" into the new con-
ference year that begins with October.

CATHOLIC

Mass at 8 a. m. Sunday School at
9. Mass at 10:30, and sermon in
English. Everybody welcome. Rev.
James S. O'Neill, Pastor.

ST. MARK'S EPISCOPAL

Corner of Louise and Harvard
Streets. 9:45 a. m. Sunday School.
11 a. m. morning prayer and sermon
by the Rev. Dr. Cornell. The choir
is under the direction of Capt. D.
Ripley Jackson and meets for choir
practice on Friday evenings at 8
o'clock at the church. St. Mark's
Guild extends a cordial invitation to
all church women to join with them
in their church work. The Guild
meets every Thursday afternoon at
2:30 o'clock in the Guild Hall of the
church.

GLENDALE MISSION

First Lutheran
Corner Maryland and Harvard
Streets. Regular services will be
held on Sunday, September 19. Morn-
ing service at 11 o'clock. Vesper ser-
vice at 7:15 p. m. Bible School at 10
a. m. Dr. H. C. Funk of Los Angeles
will preach at both morning and even-
ing services.

FIRST CONGREGATIONAL

Central at Wilson. Sunday School
service at 9:45. Morning service at
11. Evening service will be resumed
for first time this summer at 7:45.
Rev. Clyde Shephard of Pomona Col-
lege will preach at both services. All
are cordially invited.

CHRISTIAN SCIENCE

First Church of Christ, Scientist,
corner Maryland and California Ave-
nues. Service Sunday at 11 a. m.
The lesson sermon is from the
Christian Science Quarterly Bible
Lessons. Subject, Sunday, Sept. 19,
"Matter." Sunday School at 9:30 a.
m. Wednesday evening testimony
meeting at 8. Reading room, 135
South Brand Blvd., open daily except
Sunday and holidays from 12 to 5
p. m. Also every Tuesday, Thursday
and Saturday evening from 7 until 9.

BAPTIST

Meeting for the study of the Bible
at 9:30. Something for everybody.
Public worship at 11 o'clock. The
Pastor will preach from the theme,
"The Occupant of God's Building."
The third in the series on some of the
Fundamentals. Next Sunday it is
planned to have an "Old Folks" Sun-
